

MARINE MEDICAL SOLUTIONS

FAB – FAST AMBULANCE BOAT ALUMINIUM FAST AMBULANCE BOAT

This vessel is capable of transferring two patients simultaneously with three crew on board. Special attention has been paid to the internal layout of the vessel and fixed medical benches are installed. The importance of a spacious work environment, allowing for constant care to be administered around patients once onboard for the period of medical transport. The seating arrangement has the

dual purpose of a patient bench or additional patient seating, allowing for various emergency rescue operations. Special considerations are given to the aspects of simplicity and robustness of the vessel with fixed patient benches, foldaway equipment trays and floating spine boards.

All emergency equipment supplied is the best in it's class, allowing transfer of

patients from remote areas to hospital.

Specifications:	
Length	11m
Beam	3.4m
