

Land Based-MOBILE SERVICES

LBS MOBILE UNIT

LAND BASED SOLUTION

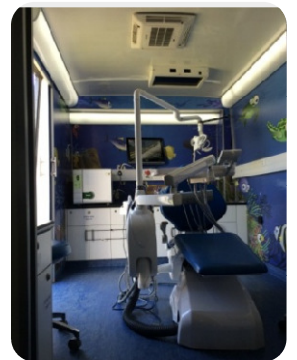

MAKO Africa's Mobile Servicing Solutions have been designed to take vital services to hard to reach locations across Africa thus improving the quality of lives of local communities. Through strategic partnerships we can supply a wide range of mobile clinics to perform any functions. These include, but are not limited to:

1. **Administration Units:** Mobile processing units for onsite administration in communities with little access to resources.
2. **Economic Development Units:** Providing economic support to underserved communities.
3. **Social Development:** Allows user to implement and integrate a rural social development plan.

4. **Mobile Justice & Command Centres:** These units can assist in enforcing a justice system and transforming the legal system.

5. **Mobile Research Centres:** These centres are used to conduct research and create database development.

6. **Mobile Health Centres:** Customised units can be built to offer multi-purpose units that can provide basic medical treatments for communities. All clinics are fully equipped with all the medical equipment necessary to run a fully functional practice.
