

MOBILE MEDICAL SOLUTIONS

RURAL AMBULANCE

MODULAR RURAL AMBULANCE CONVERSION

MAKO Marine Africa's Mobile medical solutions include custom built vehicles strategically designed for the clients requirements.

The Modular Rural Ambulance Conversion is a modular aluminium ambulance body designed to be mounted onto a pickup chassis cab.

The unit is manufactured to the highest possible standards and is fully compliant to specifications. All vehicles come standard with high visibility Diamond Grade external markings, emergency LED Lighting and Horn Transfer Siren System.

INTERIOR FINISHES

- The interior is CNC-manufactured panels which are fully washable, durable and fire retardant
- The fully-bonded "Floor Worxs Surestep" interior flooring is chemical and wear resistant and extends up the sides of the vehicle
- Vinyl-covered, high density foam trimming is used for the seating and head bumpers

ADDITIONAL FEATURES

- Escape hatch emergency exit
- Multi-directional hand rails
- LED Lighting-internal
- Driver/Cab Viewing
- Dual storage compartments

LIGHTING

- Red High Intensity LED
- Lighting to rear of opening doors.

OPTIONAL ITEMS

- 200V 800W Inverter with visual battery alarm
- TEALwash Hot Water Hand Wash Unit
